KERN EW-N/EG-N ????? ?????????
EW-N/EG-N The classic balance with robust tuning fork measuring system

only EG-NM: Internal adjustment (CAL) by rotary knob on the side. Guarantees high degree of accuracy and makes the location irrelevant

only EW-NM: Adjusting program CAL for quick setting of the balance accuracy, external test weights at an additional price, see page Fehler, ungültiger Seitenverweis ff.

- Capacity display: A bar lights up to show how much of the weighing range is still available
- Precise counting: The automatic optimisation of reference weight gradually improves the average value of the piece weight
- Totalising of counting operations

- Draft shield standard for models with weighing plate size

. Removable metal cover with pipette opening, weighing space WxDxH 158x130x78 mm
