Therma 1, industrial thermometer

Made In England

The ETI Therma 1 digital thermometer is a rugged and easy to use instrument that operates through the range of -99.9 to 1372 °C with a 0.1 °C or 1 °C resolution Therma 1 thermometers are housed in a robust, lightweight ABS case that contains 'Biomaster' additive that helps to reduce bacterial growth.

????????????? ??????.

The Therma 1 features a large, easy to read, LCD display with open circuit 'Err' and low battery indication. Each thermometer is powered by three 1.5 volt AAA batteries that gives a minimum of five years battery life. The units will power off automatically after ten minutes, maximising battery life. This feature can be disabled by the user, if required. The Therma Elite is supplied in a zip case.

ETI offers an extensive range of interchangeable thermocouple type K probes for a variety of different applications. **The Therma 1 is sold excluding probe**. **To add recommended probes and other accessories select your choices from the 'Add Accessories' dropdowns, then click 'Buy Now! button**.

For full details of the thermocouple type K probes available click here.

optional accessories

The protective silicone boot - the Therma series is splashproof to IP64 when used in conjunction with this protective boot. The wall-mounted thermometer holder stores the thermometer safely when not in use (screws not supplied).

range 0.1°C:	-99.9 to 299.9°C
range 1°C:	300 to 1372°C
resolution:	0.1°C & 1°C
accuracy:	±0.4°C ±0.1%
battery:	3 x 1.5 volt AAA
battery life:	minimum 5 years (10000 hours)
sensor type:	K thermocouple
display:	12mm LCD
dimensions:	25 x 56 x 128mm
weight:	130 grams
case material:	ABS plastic with Biomaster Antimicrobial technology
country of manufacture:	United Kingdom
guarantee:	two years
water/dust resistance:	IP64 when using 820-253 boot
measurement scale:	Celsius/Fahrenheit
certification:	FREE traceable calibration certificate
